2008 NEC® Code License/Renewal Update Seminar

Each seminar contains easy to understand powerpoint presentations, four color graphics and industry leading material to help you understand the critical changes taking place with the 2008 National Electrical Code.

Master and/or Journeyman Electricians who will be renewing licenses in will be required by Virginia Law to get 3 hours of NEC® code update training from an approved course. This seminar is approved by the Virginia Department of Professional and Occupational Regulation Board for 3 hours of continuing education credits for license renewal. Don't risk losing your license because you did not meet the requirements the DPOR have put in place for electrical tradesmen of 3 hours mandatory NEC® update code training. This is the only seminar being presented by a nationally recognized electrical code expert in your local area.

COST: Make Checks Payable to : Electrical Service Specialists

\$ 100.00 - Seminar Fee (\$ 90.00 if Pre-Paid By Mail In Advance)

* Bring your 2008 National Electrical Code Book

*Know the 2008 NEC® and stay ahead of the curve !

Notice - Sign up early as seating is limited. Minimum 15 will be required for each class or the class may be rescheduled to a later date.
